

TRIANGULA GUNSHOT DETECTION KIT

Security | Protection | Life-Saving | Forensic Applications

TRIANGULA IS MORE THAN JUST A GUNSHOT DETECTION SYSTEM

This system quickly builds a first response strategy when a firearm is discharged, providing accurate location and scene analysis through its integrated maps feature, building a firearm and ballistic intelligence database to determine the probable re-use and movement of a weapon – through city streets, across countryside and borders.

The system is deployed through apps on smartphones and/or dedicated fixed sensors.

SIX SCOUTS/SMART PHONES | ONE COMMANDER | TRANSPORT WITH CHARGERS

1 A gun is fired

2 The acoustic fingerprint is detected on three sensors

3 The detection data is forwarded to backend

4 Position and other gunshot information is presented

TRIANGULA SOFTWARE FEATURES

Accurate

Triangula can locate a gunshot within 10 meters at 800 meters range

Long Range

If you can hear the gunshot, Triangula can detect it. Triangula can locate gunshot up to 2.5 km

High Detection Rate

Triangula will detect more than 95% of audible gunshots

Real Time

Triangula will show location and gunshot information within 4 seconds of hearing the gunshot

No Special Hardware

Triangula uses plain Android or iOS smartphones as sensor. No additional hardware is needed

Integrate

Triangula integrates into most Command & Control, Situation Awareness and Battle Management Systems

Gunshot Direction

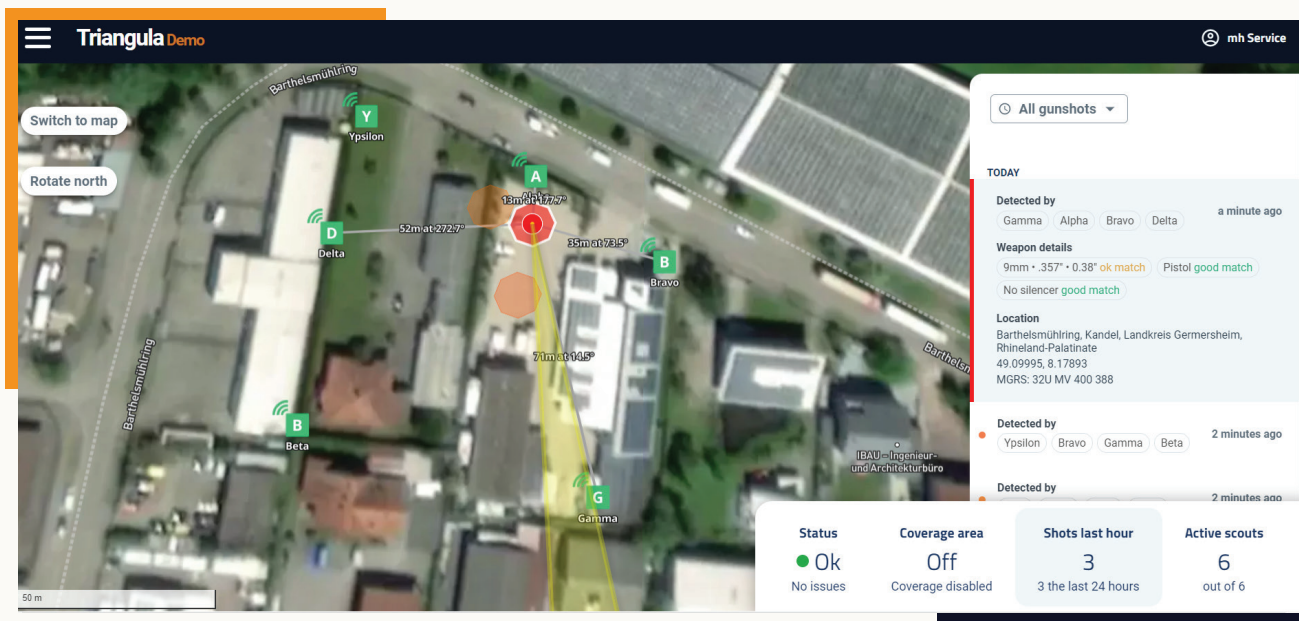

Triangula will estimate direction of gunshot, also for subsonic ammunition

Identifies Weapon

Triangula can estimate caliber, weapon category and use of silencer

COMMANDER DISPLAYS

The Commander displays

Location

Date

Distance to scouts

Approximate direction of the shot

Weapon details (pistol, rifle, silencer, calibre, ammunition ,etc.)

COMPLETE KIT IN A BOX

Commander Rugged Tablet

MIL-STD 461F

Military EMV

Robust and fall proof

IP67

Protection against dust and water

Disinfectable

Up to 12.5 Hours

6 Scouts independent models

Water repellent

5000 mAh battery

50W Fast Charging

Android Phone

Optional add-on:

Backpack for Triangula Kit Case

- Backpack-carrying-system for cases
- Manufactured from robust and water-resistant material
- Padded shoulder-straps for high comfort
- Easy and fast handling due to velcro-fasteners
- Additional pouch outside
- Ideal for transport situations in which both hands need to be free
- A solution that won't strain your back even on longer distances

TECHNICAL FEATURES

- 6x wireless charging 1x USB-C for tablet
- Battery level indicator
- External car charger socket
- The battery can be removed manually for charging
- AC charger for manual charging
- The tablet can be removed or fixed and locked in the provided holder
- A discharge protection for the battery is built into the case
- Military Grade 7.5 Ah, Rechargeable Lithium-Ion Battery

Quality at its best!

As a mark of our belief in the lasting value of our hand-made products, we give our customers a full 60 months warranty on all our mh-Service hardware products.
